G. Contributions: Over 50 clinic appearances split between coaching and lecturing. National Congress lecturer in Boston and Region 4 Congress in Milwaukee along with several Region 5 Congresses and several Illinois State Congresses. Also coached 2 Region 5 camps (Head Coach for bars and floor).

Was pioneer in the concept and development of teaching gymnastics with progressions instead of spotting starting with beam in the 1960's. The promotion of this type of coaching was greatly helped by the clinics and writings of Dr. William Sands who was Leonard's assistant coach in the mid to late 70's. Bill and Leonard often discussed selection and development of young children which Bill later expanded upon when he authored the original TOPS Program Manual.

At Kathy Kelly's request Leonard rewrote the National Team qualification procedures for Pan Am Games, World and Olympic Teams (1994-1995) which helped to avoid the problems encountered in the 1992 Olympic Trials.

In closing, Leonard has coached thousands of gymnasts over his career. He has been a trusted friend and mentor to hundreds and a surrogate parent to thousands of young children over the years. He's the best!

Cordially,

Donald McPherson
